yesterday today tomorrow

photography **artizinmyhead** creative director **ksenia** model **priyanshu**

If our life is not planned according to our goal, there will not be any direction where our life is going. Everything will be scattered. One can become a doctor, engineer, scientist, artist anything. All areas have their own importance and future prospects. It is not easy to become any of these just with a snap of fingers. Each one needs dedication, hard work, focus. None of these is small or big. It depends on a person's point of view how they see them. It is not a new thing that people consider being an artist is not a big thing. But it actually is. No one becomes an artist just in one day. An artist can be a dancer, musician, photographer, magician, model, painter etc. Even these required the same talent, hard work like that of a doctor or an engineer. If ever I got a chance to become an artist and I got the opportunity to become a painter and model, there so many things I would like to do. The idea of becoming a painter takes me back to my childhood wishes and experiences, inspiration of any painter and movies or stories related to painting.
